## COMPANY PROFILE

Maa Sharda Electronics System founded in 2002 as one of the leading company in the field of Research, Development & Manufacturing of Electronic & Electrical Products. In 2010, observing the acute requirement of energy efficient products in market, our R & D team developed BLDC fans with power consumption of 30 - 34 Watts only. Whereas the conventional fans available in market consumes 90 - 100 Watts. Our offered products such as BLDC Ceiling / Table Fans, LED Bulbs, LED Tube lights are extremely applauded in the market with 5 Star rating, owing to their long working life, reliable performance, sturdy design and low maintenance. We make these products utilizing the optimum quality component that is procured from trustworthy vendors of market. To keep the industry standards, our experts develop these products under the leadership of knowledgeable experts who have years of experience in this fielded. Apart from this, our firm has appointed a well technically trained and qualified professionals who have prosperous experience of this realm. Additionally, our organization also organizes vital programs for professionals in order to keep them abreast with sophisticated technological advancement. Our wide spread Infrastructure is separated into various units of production and supply such as manufacturing, warehouse & packaging, quality, supply & trade. Our manufacturing unit is settled with high performance machines that are competent of handling bulk of task. Further more, our personnel make sure that the consignments are delivered at customer's destination within the prearranged time-frame using easy modes of transport. Owing to these features, we have garnered vast and loyal clientele across the country. Our product have been recognized & certified by many Govt. and Private Authorities like UPNEDA, HAREDA, BAREDA, CREDA, etc.

We have come out with superior quality products to maximize our clients' satisfaction and win trust. Our company has entered this business with a mission to serve premium quality products such as solar lantern, solar street lighting system, solar home power systems, solar mobile charger, solar torches etc., to the complete satisfaction of its customers. Our intention has always been to benefit users through our high-end products and superb services.

# BLDC CEILING FAN

# UNIFAN<sup>®</sup>

## BLDC XTREME RGB CEILING FAN

Color : Smoke Brown  
Sweep : 48" (1200 mm)

Input Voltage (V)	Power (W)	RPM	Power Factor	RGB WATTAGE
220V	25W - 30W	350-380	0.98	4 to 9 Watt

\*According to Customer Requirement, Specification Can be Change

## TRANDY FUTURE-ORIENTED CEILING FAN

Color : White  
Sweep : 48" (1200 mm)

Input Voltage (V)	Power (W)	RPM	Power Factor	Backup Time
220V	28W - 35W	350-380	0.98	4.5 Hrs. at 6 Speed

\*According to Customer Requirement, Specification Can be Change

## AURA FUTURE-ORIENTED CEILING FAN

Color : Smoke Brown  
Sweep : 48" (1200 mm)

Input Voltage (V)	Power (W)	RPM	Power Factor	Backup Time
220V	25W - 30W	350-380	0.98	2.5 Hrs. / 4 Hrs. at 6 Speed

\*According to Customer Requirement, Specification Can be Change

HIGH AIR DELIVERY

LOW POWER CONSUMPTION

DOUBLE BALL BEARING

AERODYMANIC BLADES

POWER SAVINGS
